

A child in a dark jacket and boots is running across a wet beach at sunset. The sky is filled with seagulls in flight, and the sun is low on the horizon, casting a golden glow over the scene. The water reflects the sky and the child's movement.

# What kind of future do we want to create?

Global warming, extreme weather, water and air pollution,  
a lack of water resources, a loss of biodiversity...

A variety of environmental issues are emerging.

How do we solve those challenges?

What can we leave for our future children?

In quest of solid solutions, we have been striving day by day,  
and have developed our advanced technologies.

For a future society that lives in harmony with the earth.

For a healthy environment and a sustainable future.

Kobelco Eco-Solutions will contribute to crafting a sustainable society  
by our products and environmental technologies.
